About Us ■

Tale is a self-hosted software tailored for small businesses, freelancers, and various other applications. Its clean and modern design aims to enhance professionalism and boost business performance.

Key Features ■

- Project Management:** Manage and invoice projects efficiently, track expenses, and log time spent on tasks. Multiple staff members can be assigned to tasks, facilitating collaborative work.
- Invoicing:** Create professional invoices, attach files, and send them directly to clients. The system supports recurring invoices, automatically generating them based on predefined settings.
- Estimates and Proposals:** Generate estimates quickly and convert them to invoices upon client approval. Craft visually appealing proposals to impress potential clients.
- Lead Management:** Utilize a simple Kanban board to monitor leads, import them from emails, add notes, and create proposals, ensuring seamless lead tracking.
- Expense Tracking:** Record company expenses, set up recurring expenses, and bill them to customers or projects as needed.
- Support System:** Benefit from a robust ticketing system with autoresponse capabilities, private staff notes, ticket assignments, and predefined replies to enhance customer support.
- Custom Fields:** Add extra information to customers, leads, and other entities using custom fields, allowing for tailored data management.
- Integrations:** Tale integrates with various applications through platforms like Zapier, enabling automation and connectivity with apps such as WhatsApp Notifications, Google Sheets, Facebook Lead Ads, Stripe, Gmail, WooCommerce, Google Calendar, Google Ads, and Slack.

Our Products ■

Tale's comprehensive features and flexible pricing make it a valuable tool for businesses seeking to enhance their project oversight. Tale offers various modules to extend its functionality.

Rental Management System

We are a forward-thinking technology provider specializing in smart business solutions built on powerful platforms like Tale. Our Rental Management System is designed to simplify, automate, and optimize rental operations for businesses of all sizes.

With a strong focus on efficiency and scalability, we deliver a complete digital solution that manages everything from asset tracking and bookings to billing and maintenance. Our system helps rental businesses reduce manual work, minimize errors, and maximize profitability.

Backed by a team of experienced developers and business analysts, we understand the unique challenges of rental industries such as car rental, equipment leasing, and property management. That's why our solutions are flexible, customizable, and built to grow with your business.

Built on Tale, your rental system can include the following modules:

- ✓ Dashboard & Reports
- ✓ Customer Management
- ✓ Asset / Inventory Management
- ✓ Booking & Reservation System
- ✓ Rental Pricing Management
- ✓ Contract & Agreement Management
- ✓ Invoicing & Billing
- ✓ Payment Management
- ✓ Maintenance Management
- ✓ Return & Inspection Module
- ✓ Staff & Role Management
- ✓ Notifications & Alerts
- ✓ Document Management
- ✓ Mobile-Friendly Interface

Accounting and Bookkeeping System

We provide reliable and efficient accounting and bookkeeping solutions built on Tale, designed to simplify financial management for modern businesses.

Our system helps organizations manage invoices, expenses, payments, and financial reports in a single, user-friendly platform.

By automating routine accounting tasks, we reduce errors, save time, and improve financial visibility.

With a focus on accuracy, flexibility, and scalability, our solutions are tailored to meet the unique financial needs of businesses across various industries. We empower companies to maintain clear financial records, ensure compliance, and make informed decisions.

Built on Tale, your accounting and bookkeeping system can include the following modules:

- ✓ Dashboard & Financial Overview
- ✓ Chart of Accounts
- ✓ Invoicing & Billing
- ✓ Estimates & Quotations
- ✓ Expense Management
- ✓ Payment Management
- ✓ Bank & Cash Management
- ✓ Journal Entries (Advanced)
- ✓ Tax Management
- ✓ Accounts Receivable (AR)
- ✓ Accounts Payable (AP)
- ✓ Payroll Accounting Integration
- ✓ Financial Reports
- ✓ Multi-Currency Support
- ✓ Document Management
- ✓ Audit & Activity Logs

Gym Management System

We provide smart and efficient gym management solutions built on Tale, designed to simplify daily operations and enhance member experience.

Our system helps fitness centers manage memberships, attendance, trainers, billing, and class scheduling—all in one powerful

platform. By automating routine tasks, we reduce administrative workload and improve operational efficiency.

With a focus on flexibility and user-friendly design, our solutions are tailored to meet the needs of modern gyms and fitness businesses. We empower gym owners to grow their business, improve customer engagement, and deliver better fitness experiences.

Built on Tale, your gym system can include the following modules:

- ✓ Dashboard & Insights
- ✓ Member Management
- ✓ Membership Plans
- ✓ Membership Subscription Management
- ✓ Attendance Management
- ✓ Trainer Management
- ✓ Workout & Training Plans
- ✓ Diet & Nutrition Plans
- ✓ Class & Session Scheduling
- ✓ Invoicing & Billing
- ✓ Payment Management
- ✓ Access Control Integration
- ✓ Notifications & Alerts
- ✓ Product & Inventory Management
- ✓ Reports & Analytics
- ✓ Mobile-Friendly Member Portal

Hotel Management System

A Hotel Management System is a complete software solution designed to streamline hotel operations, improve guest experience, and automate daily management tasks. Built on powerful platforms like Tale, the system helps hotels manage reservations, rooms, billing, housekeeping, and customer services efficiently.

We provide smart and reliable hotel management solutions designed to simplify hospitality operations and enhance guest experiences. Our Hotel Management System helps hotels, resorts, and hospitality businesses manage reservations, guests, billing, housekeeping, and daily operations through one centralized platform.

With a focus on efficiency, automation, and user-friendly functionality, we deliver customized solutions tailored to the unique needs of the hospitality industry. Our goal is to help businesses improve operational performance, increase customer satisfaction, and achieve sustainable growth.

Built on Tale, your hotel management system can include the following modules:

- ✓ Dashboard & Hotel Overview
- ✓ Reservation & Booking Management
- ✓ Guest Management
- ✓ Room Management
- ✓ Front Desk Operations
- ✓ Housekeeping Management
- ✓ Billing & Invoicing
- ✓ Payment Management
- ✓ Restaurant & Room Service Integration
- ✓ Staff Management
- ✓ Inventory & Store Management
- ✓ Reports & Analytics
- ✓ Multi-Branch / Multi-Property Management
- ✓ Notification & Communication System
- ✓ Mobile-Friendly Access

Hotel Management System

Seamless Hotel Bookings

Guests can instantly search and book via your public portal - checking room availability by date, with auto-generated invoices. Admins retain full control, including manual bookings and dashboard tracking.

The collage displays several key features of the system:

- Bookings Table:** A table listing bookings with columns for ID, Booking Reference, Room, Guest Name, Guest Email, and Check-in Date. Two entries are shown: one for Sharon Desouza and another for Nick Hugh.
- Search Interface:** A form to search for available rooms, including fields for Hotel (Blue Haven Suites), Check-in Date (2025-06-17), and Check-out Date (2025-06-18).
- Room Details:** A detailed view of an 'Ocean View Deluxe' room, showing amenities like TV, Air Conditioning, and a mini-bar, along with a price of \$189.99 per night.
- Booking Confirmation:** A confirmation page with a green checkmark, a thank you message, and a booking reference (BK-847DF362). It also lists booking details such as hotel name, room type, and guest information.

SMS Booking Notification

Automatically send a personalised SMS to guests upon booking confirmation. Messages are delivered through Twilio (SMS service provider) and include essential booking information, such as the scheduled date and location, ensuring guests are promptly informed.

The screenshots illustrate the SMS notification workflow:

- SMS Settings:** A configuration page for Twilio, including fields for Twilio Account SID, Twilio Auth Token, and Twilio From Number. It also has checkboxes for 'Enable Twilio SMS' and 'Send SMS After Booking'.
- SMS Logs:** A table showing a history of sent SMS messages. Columns include ID, Booking ID, Template Used, Recipient, Message, Status, and Date Sent. All four entries shown are marked as 'Success'.
- Create SMS Template:** A form to create a new SMS template, with fields for Template Name, Template Slug, Template Type (set to 'Booking'), and a Message field.
- SMS Templates List:** A table listing existing templates. One template is shown: 'Booking Confirmation SMS' with a slug of 'booking-confirmation', type of 'Booking', and status of 'Active'.

Beauty Parlour Management System

We provide smart and efficient beauty parlour management solutions built on Tale, designed to streamline salon operations and enhance customer experience.

Our system helps salons manage appointments, customers, staff, billing, and inventory in one powerful platform. By automating daily tasks, we reduce manual workload, improve service quality, and increase business efficiency.

With a focus on simplicity and flexibility, our solutions are tailored to meet the needs of modern salons and beauty businesses. We empower our clients to deliver exceptional service and grow their brand with confidence.
